'Step-by-step' Guide

Before you start

From the home page, simply select the plans ahead tab and then search your location.

Step 1

Select your map base, aspect (landscape or portrait), and finally your preferred size from A4 to A0 to set up your plan

Step 3

Title your plan and add your own references, notes and logo if required. Print to PDF and download instantly.

Step 2

Use the drawing tools menu to identify and mark up, annotate, add symbols and colour up your site. You can save your plan to call up at a later date to edit and reprint free of charge.
