

## MyView by emapsite for the Commercial Sector - May 2016

### What is MyView?

**MyView by emapsite** provides non-government organisations with a low cost low risk means to access data purchased through the Mapshop as a WMS service. It is designed as first step to broaden access to a wider audience within the organisation.

*MyView* is designed as an entry point into **MyView Premium** services from emapsite that provide scalable options both in terms of functionality and usage.

In addition to mapshop purchased data *MyView* also includes Open data from suppliers such as Ordnance Survey, DCLG, English Heritage, Environment Agency, and Natural England.

### What are the MyView options?

Designed to provide access to a wide an audience as possible *myView* services are not limited to a number of users but are available to all within the organisation who wish to use the service.

Each service option provides a reasonable daily usage for the organisation with varying usage demands from single users to larger project teams, these being:

**myView1.0:** 1,000 tiles\* per day

**myView2.0:** 2,000 tiles\* per day

**myView4.0:** 4,000 tiles\* per day

**myView6.0:** 6,000 tiles\* per day

\*Tile size 256 x 256 pixels

In addition, a Contractor option allows contractors nominated by the organisation to also gain access to the *myView* service:

**Contractor:** 2,000 tiles per day per contractor

All of the above service options provide access to:

- OS Open data – as listed below
- Organisation mapshop purchases
- Other Open data – listed below

## What are the upgrade options?

With increasing use of the *MyView* service an organisation may wish to either increase daily usage or the functionality available. emapsite offers a range of *MyView Premium* services that allow users to:

- Add WMTS and WFS data formats
- View pre Licensed Data
- Avoid the need to manage multiple data suppliers
- Optimise data costs and usage through Pay as you Go Data
- Add Additional Open Data
- Turn-On/Turn-Off data sets within 48 hours of request
- Upload and view your own data (UGC)
- Receive Monthly Usage Reports
- Request custom formatting of layers
- Add additional daily usage levels

All *MyView Premium* services are backed by a comprehensive Service Level Agreement
