

## MyView by emapsite for the Public Sector - May 2016

### What is MyView?

**MyView by emapsite** provides local authorities and government agencies with a low cost low risk means to access PSMA data as a WMS service. It is designed as first step to broaden access to a wider audience both within the authority and externally.

**MyView** is designed as an entry point into **MyView Premium** services from emapsite that provide scalable options both in terms of functionality and usage.

In addition to PSMA data **MyView** also includes other Open data from suppliers such as DCLG, English Heritage, Environment Agency, and Natural England.

### What are the MyView options?

Designed to provide access to a wide an audience as possible and encourage use of the data available through the PSMA agreement, **MyView** services are not limited to a number of users but are available to all within the authority who wish to use the service.

Each service option provides a reasonable daily usage for the type of Authority or Agency, these being

<b>Local:</b>	2,000 tiles* per day
<b>District:</b>	4,000 tiles* per day
<b>County:</b>	6,000 tiles* per day
<b>Central:</b>	8,000 tiles* per day

\*Tile size 256 x 256 pixels

In addition, a Contractor option allows contractors nominated by the Authority to also gain access to the **MyView** service:

**Contractor:** 2,000 tiles per day per contractor

All of the above service options provide access to:

- PSMA data - as listed below
- OS Open data – as listed below
- Authority mapshop purchases
- Other Open data – listed below

## What are the upgrade options?

With increasing use of the *MyView* service the authority may wish to either increase daily usage or the functionality available. emapsite offers a range of *MyView Premium* services that allow users to:

- Add WMTS and WFS data formats
- View pre Licensed Data
- Avoid the need to manage multiple data suppliers
- Optimise data costs and usage through Pay as you Go Data
- Add Additional Open Data
- Turn-On/Turn-Off data sets within 48 hours of request
- Upload and view your own data (UGC)
- Receive Monthly Usage Reports
- Request custom formatting of layers
- Add additional daily usage levels

All *MyView Premium* services are backed by a comprehensive Service Level Agreement
